<td>OFF CAMPUS RENTAL</td>
<td>Lease or rental of office or storage space (Applies only to leased storage space. Storage services such as off site record storage should be charged to budget/object 3599) from external landlords (parties outside the university), whether on or off campus. Lease or rental of space not owned and operated by the university. For example, Barnes-Jewish Hospital and St. Louis Children's Hospital are both external institutions. Excludes rental of meeting space (See budget/object 35-99 - Storage - Off Campus - Medical School &quot;Only&quot;). Excludes rental of space owned and operated by the university or from internal university landlords (use 35-07). Payments due to external landlords for lease or rental of on-campus space (applicable to medical center campus only - all Hilltop campus space is owned by the university) are overhead expenses in support of operation &amp; maintenance of plant (O&amp;M). These must be charged to budget/object 35-29 on university expense accounts coded as O&amp;M (A21 or &quot;424&quot; code of 07). Payments due to external landlords for lease or rental of off-campus space (outside of the Hilltop or Medical campuses) are normally expenses in direct support of the university's missions. These must be charged to budget/object 35-29 on university expense accounts coded as clinical practice, department research, organized research, or other missions. Use of off-campus space for grants is normally identified at the time a grant is submitted. (See next page.)</td>

<tr>
<td>35-29 cont.</td>
<td>OFF CAMPUS RENTAL</td>
<td>The off-campus overhead rate excludes space costs and is therefore lower than the on-campus rate. Changes (e.g., from off-campus to on-campus) must be approved by the sponsoring agency for federal grants. Charges for off-campus space must not be charged to overhead account such as operation &amp; maintenance of plant except when the university leases an entire off-campus building or substantial portion that are used for multiple departments and missions. This is determined at the time a lease is executed. In this case, the grant pays the on-campus overhead rate but no direct space costs. The total costs of the space are charged to the school O&amp;M accounts and support for the space utilized by the grant is recovered through overhead charges. This is a rare exception.</td>

The definition of &quot;on-campus&quot; for lease coding purposes is literally the Medical School campus. &quot;On-site&quot; encompasses the larger area within 1 mile of the literal campus boundaries within which the overhead reduction for off-site practice does not apply. All externally leased or rented space must be recorded in the university's space utilization system.</td>
